Choosing a Micro or Macro Perspective for Understanding Organized Crime: The Contributions of Ernesto Savona

Jay S. Albanese

Choosing a Micro or Macro Perspective for Understanding Organized Crime

There are two ways to look at the world: that of the bird or that of the frog. The
 bird's eye view is the macro-level approach in which the world and its problems are
 viewed from above, and broader social context is seen to produce social problems.
 The frog's view sees the world and its problems from the bottom up. This is the
 micro-level approach where individual level experience produces many individual
 outcomes, which might ultimately have larger social implications.

This is an important difference in perspective in social science, and when we
 endeavor to explain criminal conduct, because it makes all the difference in knowing
 where to begin looking for causation: in the individual or in the larger social context?
 Some might say we must look in "both places," but this begs the question of where
 to begin. Do the problems of crime and criminology demand bottom-up or top-down
 approaches?

This is indeed a larger problem of social science. Several researchers have ad-
 dressed this issue of proper perspective, and its importance (Criminology 1990; Mazerolle
 2011). The fundamental question is whether causality lies at the micro or macro
 level. The history of criminology focuses on micro-level explanations, perhaps be-
 cause it is easier to measure and assess individuals and large prevention efforts (Shen
 and Shreck 1983). Other theories look at neighborhood organization, and other
 macro-level variables to explain neighborhood organization and its impact of crime
 (Shenpan 2002).

Ernesto Savona and the bird frog analogy at a meeting on organized crime in Nairobi, Kenya
 in 2010. It was the first time I had heard him use this analogy.

Cesare Beccaria (1738-1794)

Cesare Beccaria Bonesana, fils aîné du marquis de Guadrasco et
 Villareggio, a tout juste vingt ans lorsqu'il achève ses études de droit.
 L'année suivante, en 1759, au terme d'un long parcours de requêtes et de
 suppliques, sa famille est admise dans les rangs du patriciat milanais. Une
 carrière toute tracée peut alors s'ouvrir à lui : le titre de docteur en droit
 et le rang de patricien sont en effet les deux conditions indispensables
 pour occuper les plus hautes charges et magistratures de la ville. C'est
 donc en compagnie d'un père comblé que, de 1758 à 1760, il récite des
 poèmes dans le cercle des *Trasformati*, l'académie littéraire la plus
 prestigieuse de Milan, où Giuseppe Parini fait au même moment ses
 premières ames. Le temps est loin où Pétrarque jugeait ses études de
 droit incompatibles avec sa vocation poétique : préparé à sa formation
 universitaire par huit années d'enseignement dans un collège jésuite,
 Beccaria baigne dans une culture rhétorique qui a depuis longtemps
 réconcilié la littérature et le droit. [109]

À un regard rétrospectif, certains signes certes ténus montrent
 cependant qu'il ne se sent pas complètement à l'aise dans ce destin déjà
 écrit, dans cette ascension programmée d'une famille de la noblesse. Au
 collège, il avait ainsi manifesté bien peu de goût pour la rhétorique, et
 infiniment plus pour l'autre branche maîtresse de la culture jésuite : ses
 prodigieuses capacités mathématiques lui avaient même valu le surnom
 de « Newton en herbe » (*Newtoniano*). À l'académie, il s'était surtout
 exercé dans le genre de la poésie philosophique, en composant
 notamment une élégie sur le tremblement de terre de Lisbonne, un
 sonnet sur le bonheur et un hymne au commerce. Mais son goût pour les
 sujets non poétiques le conduit bientôt à déclamer en vers qu'il n'écrira
 plus de vers. Dans son premier poème, une satire contre les bibliophiles
 qui aiment les livres et n'aiment pas lire, comme dans son cinquième et
 dernier, une satire contre les poèmes de circonstance, Beccaria raille un
 siècle qui se paie de mots et ne sait ni décrire, ni transformer le monde.

L'orage éclate entre l'automne 1760 et l'hiver 1761 : tel le Mister B. de
 la *Pamela* de Richardson, Beccaria s'éprend d'une jeune adolescente de 16
 ans, fille d'un officier sicilien, sans fortune et de petite noblesse. Son

AUSTRIAN LEGAL STUDIES

Legal Studies - Characteristics of Effective Laws, Fairness, Access, Time and Values

Fairness, Access, Time and Values

The characteristics of effective laws as well as the actions within the dispute resolution framework.

- * „fairness„ and unbiased legal procedures and hearings
- * „access„ to mechanisms for dispute resolution
- * „timely„ resolution of disputes
- * „values„ and rights recognised

EFFECTIVE LAWS ARE CHARACTERISED BY ANY OF ALL OF THESE FEATURES:

• Hence an effective law may be one that enforces the right outcome, a correct final decision in jury verdict, or the proper use of sentencing laws by a court. This broad definition suggests the concept of an effective law is open to a degree of interpretation. Process is a reflection of effectiveness is therefore difficult as the perspective of effectiveness may vary depending on the status of the viewer, i.e. an accused of effectiveness can differ depending on the extent to which they affect particular individuals. For example, in criminal cases, the legal system often needs to reconcile conflict between the protection of individual civil liberties, whilst maintaining mechanisms for the suppression of crime and retribution in behalf of victims and society as a whole. In civil instances, a convicted offender may see a jury verdict as effective, whereas a victim of crime may see the same verdict as ineffective. In addition, the legal system and convicted individuals may have different versions of the effectiveness of provisions used in a criminal case. However, it must be noted that society's perspective of the law's effectiveness is often more important than an individual's because a verdict case it represents the majority view in a democratic legal system.

Procedural Justice

Substantive Justice

The types of effective justice exist: „procedural„ and „substantive„ justice. „Procedural„ justice refers to the processes for reaching an outcome or decision or verdict (eg the criminal trial procedure or the Supreme Court before a judge and jury) whereas „substantive„ justice refers to the actual outcome or decision or verdict within the legal system (e.g. guilt and imprisonment for 20 years). In this way, an outcome may be regarded as being procedurally just but substantively unjust. The concept of procedural justice is also important in the context of the legal system, but the most important is that justice is wrong on the facts or against the weight of the evidence.
